# Together for Waisman

**Improving Lives. Transforming Futures.** Since opening its doors in 1973, the Waisman Center has been at the forefront of groundbreaking research, clinical services, training, and outreach centered on improving the lives and transforming futures for individuals with intellectual and developmental disabilities and their families. Since 2001, we've expanded our focus to also include neurodegenerative diseases such as Parkinson's and Alzheimer's disease. The center encompasses specialty clinics in partnership with UW Health, autism treatment programs, biological and behavioral research labs, a brain imaging center, a biomanufacturing facility, a developmentally diverse preschool, and so much more.

**We need your help.** Your charitable gift will support expanding the Waisman Center's new Functional Genomics Core. Understanding the genetic cause of intellectual and developmental disabilities helps pave the way for treatments and therapies. Integrating research, clinical services, and community outreach, this core provides crucial tools to move scientific discoveries from the lab into patient-specific treatments and therapies for the future.

Through a generous challenge grant from **Jay & Pat Smith**, we have the opportunity to match donations up to **\$50,000**.

**Join us for a stay-at-home benefit on Saturday, April 22.**

In appreciation for your support, our partners will receive a gourmet meal-to-go prepared by **Chez Vous**, goodies from **Bagels Forever**, **Orange Tree Imports**, **Seafood Center**, and wine from **Phillips Wine Company** and **General Beverage**.

Curbside delivery or pick-up between 3:00-4:30 p.m. | Vegetarian & gluten-free options available.
